Article 1– Aim of the Data Protection Policy

New Empowerment Initiative-Sierra Leone (hereafter referred to as 'NEI-SL') acknowledges that information technology should be at the service of every citizen. Information technology development shall take place in the context of international co-operation. Information technology shall not violate human identity, human rights, privacy, or individual or public liberties.

NEI-SL is committed to international compliance with data protection laws. This Data Protection Policy applies worldwide to NEI-SL and is based on globally accepted, basic principles on data protection. Ensuring data protection is the foundation of trustworthy relationships and the reputation of NEI-SL as a credible organisation.

The Data Protection Policy ensures the adequate level of data protection as prescribed by relevant legal frameworks, including in countries that do not yet have adequate data protection laws.

NEI-SL data protection policy is meant to be a practical and easy to understand document to which all NEI-SL departments, stakeholders and partners can refer to.

Article 2– Scope of the Data Protection Policy

This Data Protection Policy applies to all entities of NEI-SL, including network and branch offices in all countries of operation.

1. The policy applies to all NEI-SL staff and governance members.
2. The provision of this policy may also be applied to any person employed by an entity that carries out missions for NEI-SL.
3. In particular, this policy applies to implementing partners, suppliers, sub-grantees, stakeholders and other associated entities.

NEI-SL's Data Protection Policy applies to all personal data that NEI-SL holds relating to identifiable individuals, meaning any information relating to an identified or identifiable individual.

Article 3– NEI-SL's sets of data and definitions

NEI-SL's Data Protection Policy applies to all sets of personal data, currently stored, maintained and handled by NEI-SL, and more specifically to the following identified sets of personal data:

- NEI-SL's personnel, including national and international staff, interns and volunteers,
- NEI-SL's direct and indirect beneficiaries, including interviewees,
- NEI-SL's individual donors and sympathisers,
- NEI-SL's contractors, suppliers, consultants, implementing partners currently under contract with NEI-SL.

Personal data herein referred to, means any information relating to a natural person who is or can be identified, directly or indirectly, by reference to an identification number or to one or more factors specific to his physical, physiological, mental, economic, cultural or social identity. This can include in particular:

- Names of individuals
- Postal or living addresses
- Email addresses
- Telephone numbers
- Identity card and passport
- Date and place of birth
- Identification of relatives

- Fingerprints
- Business reference
- Geo-referencing

Processing of personal data means any operation or set of operations in relation to such data, whatever the mechanism used, especially the obtaining, recording, organisation, retention, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, deletion or destruction.

Article 4 – Application of National Laws and Sources of Authority

NEI-SL is headquartered in Bo, Southern Sierra Leone and operates in accordance with the laws of Sierra Leone, including all applicable statutes, regulations, and administrative requirements governing data protection and privacy. NEI-SL also conducts activities in multiple other countries; each NEI-SL country operation must observe the laws and regulatory requirements of the country in which it operates.

This Data Protection Policy reflects internationally accepted data privacy principles and is intended to supplement, not replace, applicable national data protection laws. Where a provision of Sierra Leonean law or any other relevant national law conflicts with this Policy, or imposes stricter requirements, the national law shall prevail. Where no corresponding national legislation exists, the standards set out in this Policy must be observed. All statutory reporting and notification obligations relating to data processing under national law must be complied with.

Each NEI-SL entity, including the headquarters, network offices, and branch offices, is responsible for ensuring compliance with this Data Protection Policy and with all applicable legal obligations. NEI-SL has established internal rules and standards to promote a consistent approach to data protection across its operations; in some instances, these internal standards may be more stringent than national or local requirements. Where this is the case, NEI-SL personnel must comply with both the applicable national or local law and the stricter internal standard.

If a conflict arises between this Data Protection Policy and national legislation, NEI-SL will engage with the relevant country office and, where appropriate, national authorities to identify a practical solution that preserves the objectives of this Policy while respecting mandatory legal requirements.

This Policy is intended to guide NEI-SL staff in the lawful and ethical handling of personal data. It should be read and applied together with the following documents:

- Nonprofit NGOs Child Protection Policy;
- NEI-SL's Code of Conduct and the policies annexed thereto;
- NEI-SL's manuals and operational guidelines.

Article 5- Principles for Processing Personal Data

1. Fairness and Lawfulness

- When processing personal data, the individual rights of the data subjects must be protected. Personal data must be collected and processed in a legal and fair manner.
- Collected data shall be adequate, relevant and not excessive in relation to the purposes for which they are obtained and their further processing.
- Individual data can be processed upon voluntary consent of the person concerned.

2. Restriction to a specific purpose

- Personal data can be processed only for the purpose that was defined before the data was collected. Personal data shall be obtained for specified, explicit and legitimate purposes, and shall not subsequently be processed in a manner that is incompatible with those purposes. Subsequent changes to the purpose are only possible to a limited extent and require justification.
- However, further data processing for statistical, scientific and historical purposes shall be considered compatible with the initial purposes of the data collection, if it is not used to take decisions with respect to the data subjects.

3. Transparency

- The data subject must be informed of how his/her data is being handled. In general, personal data must be collected directly from the individual concerned. When the data is collected, the data subject must either be made aware of, or informed of:
 - ✓ The purpose of data processing;
 - ✓ Categories of third parties to whom the data might be transmitted
- Processing of personal data must have received the consent of the data subject or must meet one of the following conditions: compliance with any legal obligation to which NEI-SL is subject; the protection of the data subject's life; the performance of a public service mission entrusted to NEI-SL.

4. Confidentiality and Data Security

- Personal data is subject to data secrecy. It must be treated as confidential on a personal level and secured with suitable organisational and technical measures to prevent unauthorised access, illegal processing or distribution, as well as accidental loss, modification or destruction.

5. Deletion

- Personal data shall be retained in a form that allows the identification of the data subjects for a period no longer than is necessary for the purposes for which they are obtained and processed. There may be an indication of interests that merit protection or historical significance of this data in individual cases. If so, the data must remain on file until the interests that merit protection have been clarified legally, or the corporate archive has evaluated the data to determine whether it must be retained for historical purposes.

6. Factual Accuracy and Up-to-datedness of Data

- Personal data on file must be correct, complete, and – if necessary – kept up to date. Suitable steps must be taken to ensure that inaccurate or incomplete data are deleted, corrected, supplemented or updated.

Article 6– Data Processing

1. Consent to Data Processing

- Individual data can be processed upon consent of the person concerned. Declarations of consent must be submitted voluntarily. In certain exceptional circumstances, consent may be given verbally.

2. Data processing Pursuant to Legitimate Interest

- Personal data can also be processed if it is necessary to enforce a legitimate interest of NEI-SL. Legitimate interests are generally of a legal (such as filing, enforcing or defending against legal claims), audit or financial nature. Personal data may not be processed based on a legitimate interest if, in individual cases, there is evidence that the interests of the individual merit protection. Before data is processed, it must be determined whether there are interests that merit protection. Control measures that require processing of personal data can be taken only if there is a legal obligation to do so or there is a legitimate reason. Even if there is a legitimate reason, the proportionality of the control measure must also be examined. The justified interests of the organisation in performing the control measure (e.g. compliance with legal provisions and internal rules of the organisation) must be weighed against any interests meriting protection that the individual affected by the measure may have in its exclusion, and cannot be performed unless appropriate.

3. Telecommunications and Internet

- Telephone equipment, e-mail addresses, intranet and internet along with internal social networks are provided by NEI-SL primarily for work-related assignments. They are a tool and an organisational resource. They can be used within the applicable legal regulations and internal NEI-SL communication policies. In the event of authorised use for private purposes, the laws on secrecy of telecommunications and the relevant national telecommunication laws must be observed if applicable.
- There will be no general monitoring of telephone and e-mail communications or intranet/ internet use. To defend against attacks on the IT infrastructure or individual users, protective measures can be implemented for the connections to the network used by NEI-SL that block technically harmful content or that analyse the attack patterns. For security reasons, the use of telephone equipment, e-mail addresses, the intranet/internet and internal social networks can be blocked for a temporary period. Evaluations of this data from a specific person can be made only in a concrete, justified case of suspected violations of policies and/or procedures of NEI-SL. The evaluations can be conducted only by investigating departments while ensuring that the principle of proportionality is met. The relevant national laws must be observed in the same manner as the NEI-SL regulations.

4. Rights of the Data Subject

All individuals who are the subject of personal data held by NEI-SL are entitled:

- To request information on which personal data relating to him/her has been stored, how the data was collected, and for what intended purpose. If there are further rights to view the employer's documents (e.g. personnel file) for the employment relationship under the relevant employment laws, these will remain unaffected. If personal data is transmitted to third parties, individuals should be informed of such a possibility. If personal data is incorrect or incomplete, the data subject can demand that it be corrected or supplemented.
- To request his/her data to be deleted if the processing of such data has no legal basis, or if the legal basis has ceased to apply. The same applies if the purpose behind the data processing has lapsed or ceased to

be applicable for other reasons. Existing retention periods and conflicting interests meriting protection must be observed.

- To object to his/her data being processed, and this must be taken into account if the protection of his/her interests takes precedence over the interest of the data controller owing to a particular personal situation. This does not apply if a legal provision requires the data to be processed.

Article 7- Transmission of Personal Data

Transmission of personal data to recipients outside or inside NEI-SL is subject to the authorisation requirements for processing personal data under Section 6 and requires the consent of the data subject. The data recipient must be required to use the data only for the defined purposes.

In the event that data is transmitted to a recipient outside NEI-SL, this recipient must agree to maintain a data protection level equivalent to this Data Protection Policy. This does not apply if transmission is based on a legal obligation.

The processing of personal data is also permitted if national legislation requests, requires or authorises this. The type and extent of data processing must be necessary for the legally authorised data processing activity, and must comply with the relevant statutory provisions. If there is some legal flexibility, the interests of the individual that merit protection must be taken into consideration.

In certain circumstances, the NEI-SL Data Protection Policy allows personal data to be disclosed, based on a legal obligation, to law enforcement agencies, without the consent of the data subject.

Only NEI-SL's Executive Director can validate any such disclosure in writing, ahead of the disclosure, after ensuring the request is legitimate, motivated by the requester, appropriate, necessary and does not pose a threat or direct risk to NEI-SL.

Before approving such disclosure, NEI-SL's Executive Director will check that the recipient of the data uses the data for the defined purposes only, and that it demonstrates the capacity and will to abide by such an obligation.

Where necessary, NEI-SL's Executive Director will refer to legal advisers for advice, and to NEI-SL's Committee for validation, notably but not only in cases involving direct security threats and implications or global organisational risks including reputation.

Article 8- Subject access and modification requests to personal data

All NEI-SL staff and external individuals to the NGO can contact NEI-SL to request rights as listed in Article 6 section 4 - Rights of the Data Subject to be applied.

Individual subject access requests from individuals should be addressed by email or in writing. If not in writing, the request should be taken and handled by a duly authorised NEI-SL staff and registered in a log for reference and follow up.

Any individual subject access request received by NEI-SL will be duly verified before being handled, with the verification of the identity of anyone making a subject access request, before handing over any information.

NEI-SL will ensure to respond to individual requests in a timely manner.

NEI-SL will ensure that any data subject, including but not only personnel, individual donors and sympathisers, and beneficiaries, have the means to contact NEI-SL to verify the data NEI-SL holds about them, and can have authorised NEI-SL personnel update and correct personal information. Such an obligation entails the following:

- NEI-SL staff should have access to their personal files and to any information held by NEI-SL on them, by simple request to Human Resources department, to be presented and corrected by a duly authorised staff only. The consultation of any information on any other staff is strictly prohibited.
- Individual donors and sympathisers listed by NEI-SL can reach out to NEI-SL to check the data held by NEI-SL and have it corrected as well as deleted. Information on this right and on how to reach out to NEI-SL for such a purpose should be clearly indicated on NEI-SL website, as well as on the main media of communication to Individual donors and sympathisers, including donation receipts and donor documentation, and upon request when calling NEI-SL HQ. Such a responsibility lies at the global level with the NEI-SL Head of Human Resources.
- NEI-SL current direct and indirect beneficiaries (including survey interviewees) shall have access to NEI-SL to check any data NEI-SL holds on them, to ensure its correctness, fairness, and to have it modified and updated upon request by duly authorised NEI-SL personnel. For such a purpose, NEI-SL teams at country level should set up and maintain complaints response mechanism that is both open and accessible to individuals, with limited constraints, while ensuring that any request by individuals is duly followed by appropriate corrective measures and communications. Contact information to uphold this right and reach out to NEI-SL for such a purpose should be clearly indicated on NEI-SL website as well as on other means of public information at country level. Such a responsibility lies with the NEI-SL Country Focal Point at country level and with NEI-SL's Heads of Programmes and Research at the global level.
- NEI-SL contractors and suppliers can reach out to NEI-SL Hub to check data held by NEI-SL and have it corrected. Such a responsibility lies with the HQ officer in charge of Hub
- NEI-SL implementing partners shall have access to NEI-SL to check any data NEI-SL holds on them, to ensure its correctness, fairness, and to have it modified and updated upon request by duly authorized NEI-SL personnel. Such a responsibility lies with the NEI-SL Country Focal Point at country level and with the NEI-SL head of Programmes at the global level.

Article 9 – Providing information

NEI-SL aims to ensure that individuals are aware that their data is being processed, and that they understand:

- How the data is being used;
- How to exercise their rights;

To these ends, the current policy is shared with all NEI-SL staff and available on request by individuals. A version of this Policy is also available upon request to NEI-SL HQ.

Any subscriber or user of an electronic communication service shall be informed in a clear and comprehensive manner by NEI-SL, except if already previously informed, regarding: the purpose of any action intended to provide access, by means of electronic transmission, to information previously stored in their electronic connection terminal device, or to record data in this device; the means available to them to object to such action.

Article 10 – Confidentiality of Processing

Personal data is subject to data secrecy. Any unauthorised collection, processing, or use of such data by employees is prohibited. Any data processing undertaken by an employee that he/she has not been authorised to carry out as part of his/her legitimate duties is unauthorised. The “need to know” principle applies. Duly-authorised employees may have access to personal information only as is appropriate for the type and scope of the task in question. This requires a careful breakdown and separation, as well as implementation, of roles and responsibilities.

Employees are forbidden to use personal data for private or commercial purposes, to disclose it to unauthorised persons, or to make it available in any other way. Supervisors must inform their employees at the start of the employment relationship about the obligation to protect data secrecy. This obligation shall remain in force even after employment has ended.

Article 11 - Processing Security

Personal data must be safeguarded from unauthorised access and unlawful processing or disclosure, as well as accidental loss, modification or destruction. This applies regardless of whether data is processed electronically or in paper form. Before the introduction of new methods of data processing, particularly new IT systems, technical and organisational measures to protect personal data must be defined and implemented. These measures must be based on the state of the art, the risks of processing, and the need to protect the data (determined by the process for information classification). The technical and organisational measures for protecting personal data are part of NEI-SL's ITC management and must be adjusted continuously to the technical developments and organisational changes.

Article 12 - Data Protection Control

Compliance with the Data Protection Policy and the applicable data protection laws is checked regularly with data protection audits and other controls. The performance of these controls is the responsibility of NEI-SL's Executive Director or appointed representative. The results of the data protection controls performed by appointed representative must be reported to the Executive Director. NEI-SL's Committee must be informed of the primary results as part of the related reporting duties. On request, the results of data protection controls will be made available to the responsible data protection authority. The responsible data protection authority can perform its own control of compliance with the regulations of this Policy, as permitted under national law.

Article 13 - Violation, sanction and reporting

Any failure to comply with the current policy or to deliberately violate the rules set in the policy will result in the launch of an appropriate investigation by NEI-SL.

Depending on the gravity of the suspicion or accusations, NEI-SL may suspend staff or relations with other stakeholder during the investigation. This will not be subject to challenge.

Depending on the outcome of the independent investigation, if it comes to light that anyone associated with NEI-SL has deliberately violated the rules set in the policy for its personal profit or any other usage of personal data, or has systematically and deliberately contravened with the principles and standards contained in this document, NEI-SL will take immediate disciplinary action and any other action which may be appropriate to the circumstances. This may mean, for example, for:

- Employees - disciplinary action/dismissal;

- Trustees, officers and interns - ending the relationship with the organisation;
- Partners - withdrawal of funding/support;
- Contractors and consultants - termination of contract.

Depending on the nature, circumstances and location of the case and violation, NEI-SL will also consider involving authorities such as the police to ensure the protection of personal data and victims.

The reporting of suspected or actual violations to this policy is a professional and legal obligation of all staff and partners. Failure to report information can lead to disciplinary action.

NEI-SL encourages its staff and stakeholders to report suspected cases which involve any NEI-SL staff, consultants, board members, guests or staff of NEI-SL's partner organisations, their board members, staff and or suppliers.

NEI-SL encourages its staff and stakeholders to report suspected cases through the following means:

- Staff and interns can report contacting
 - ✓ standard lines of hierarchy (contained in staff Terms of Reference);
 - ✓ the Head of Human Resources
- Beneficiaries and their representatives can report using the Complaints and Response Mechanism (CRM).
- Suppliers and contractors can use the confidential email address transparency@newempowermentinitiative-sl.org.
- Individual donors and sympathisers can refer to the confidential email address transparency@newempowermentinitiative-sl.org.

All reports will be treated as confidential in line with NEI-SL's Code of Conduct and NEI-SL's Human Resources guidelines.

NEI-SL will not tolerate false accusations which are designed to damage a member of staff's reputation. Anyone found making false accusations will be subject to investigation and disciplinary action.

Article 14 - Responsibilities

NEI-SL's Committee is responsible to ensure that the legal requirements, and those contained in this Data Protection Policy, for data protection are met (e.g. national reporting duties).

Management staff are responsible for ensuring that organisational, Human Resources, and technical measures are in place so that any data processing is carried out in accordance with data protection. The managers must ensure that their employees are sufficiently trained in data protection

Compliance with these requirements is the responsibility of the relevant employees.

Article 15 – Implementation of the policy

This policy has been approved by NEI-SL's Executive Director on October, 2022 and comes into effect immediately. It could be reviewed regularly.
